

Ayrshire Fisheries Management Plan Contents

	Contents	Page
Section 1 & 2	Introduction & Aims and Objectives	1
1	Introduction	1
2	Aims and Objectives	2
Section 3	Catchment Description	5
3.1	Management units	5
3.2	Catchment statistics and water flow	6
3.3	Climate	8
3.4	Topography	8
3.5	Geology	10
3.6	Soils	11
3.7	Land use	12
3.8	Water quality	13
3.9	Habitat quality	14
Section 4	Fish populations	16
4.1	Electrofishing data	16
4.2	Salmon and trout	17
4.3	Genetics	21
4.4	Other fish species	23
4.5	Ayrshire fisheries	28
4.6	Fish hatcheries	33
Section 5	Factors affecting fishery production	35
5.1	Water quality	35
5.2	Habitat degradation	38
5.3	Weirs and other impoundments	43
5.4	Upland land use	45
5.5	Water management	48
5.6	Stock exploitation	50
5.7	Predators	51
5.8	Introduced species	51
5.9	Marine issues	52
Section 6	Present management structures	55
6.1	Management Structures	55
6.2	Management activities	57
6.3	Bailiffing	59
6.4	Easing barriers to fish migration	60
6.5	Exploitation control	60
6.6	Stocking	60
6.7	Education programmes	60
Section 7	Proposed management actions	63
